**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

This communication is based on the conversation between applicant's attorney, Paul Grunzig, and Examiner Mitchell on January 31, 2007. Applicant informed him that the advisory action filed January 25, 2007 was improper, because Examiner had agreed on December 27, 2006 that his next office action would be non-final due to an incorrect reference number given for Dawson. Based on the agreement and review of the record, the advisory action is withdrawn and a non-final rejection given. Applicant's period for reply is restarted from the mailing of this office action.

Ex. Mitchell, J.D.

## **DETAILED ACTION**

This office action is in response to the amendment filed January 2, 2007.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 28-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Supports separated and distinct, and supports connected by a band are mutually exclusive; supports can't be separated if they are also connected<sup>1</sup>.

### ***Allowable Subject Matter***

Claims 8,10,13,14,21,23,25 and 32-35 are allowed.

### ***Response to Arguments***

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

---

<sup>1</sup> Note that supports with wings connected by a band are anticipated by the Cromwell (U.S. 6,198,630), because separate supports once connected become an integral structure as encompassed by the prior art.
